

Omnis Website — Full Codebase Documentation

A dual-audience website for Omnis, a consulting organization bridging the social sector and business world. The site splits into two distinct worlds from a single homepage: one for NGOs/nonprofits, one for business owners seeking social impact strategy.

1. Project Overview

Omnis is a split-brand consulting website with two fully independent sub-sites sharing a single codebase:

Audience	URL prefix	Identity color
----------	------------	----------------
